Applicants' intent to prosecute claim 34 is noted. Therefore, for the purpose of compact prosecution claim 34 will be examined.

Claims 33-34 and 46-49 are being examined as reading on the elected invention. Upon consideration the election requirement is withdrawn to the specific disease conditions recited in claim 33. However, the compound election will be maintained, and the compounds in claims 33 and 34 will be examined to the extent that they read on the compound recited in claims 47-49.

Claims 33-34 and 46-49 are rejected under 35 U.S.C. 101 because the disclosed invention is inoperative and therefore lacks utility. *Mase* (page 388, Table 1, No. 9) discloses the compound of claims 46-49. It states that immunosuppressive agents are effective for organ transplantation, but that applicants' compound No. 9 lacks this utility. (see Table 1, where the percent of inhibition is -11.5 and -1.9)
